

Environmental Supervisor

Location: Fort St. John & Port Moody, BC / Calgary, AB

Overview

SynergyAspen's purpose is to reduce our clients' environmental footprint. We are a growing environmental consulting firm that provides clients with exceptional service and value, and our employees with meaningful careers. Our areas of expertise include contaminated sites, natural sciences, and reclamation services.

The primary function of the Environmental Supervisor is to safely complete field work programs, manage data and prepare factual reports under the direction of an Environmental Coordinator or Environmental Project Manager. This role delivers excellent client service and build confidences in the relationships through solid decision-making abilities. This position supports Remediation, Reclamation or Natural Sciences projects located in Northeast, BC and includes significant field work activities. This position reports to the Environmental Project Manager or Environmental Account Manager.

Your Key Responsibilities

- Lead the investigation, remediation, reclamation, or natural sciences field activities in accordance with regulatory requirements and SynergyAspen's preferred operating procedure
- Provide technical report writing
- Assist with preparation of scopes of work, and cost estimates
- Adhere to client specific and SynergyAspen's Health and Safety policies and a commitment to health and safety as an integral component of all activities
- Ensure timely delivery of assigned tasks
- Provide high quality data, safely and on time
- Provide excellent customer service to clients, maintaining a positive, cooperative attitude when working alone or as part of a team

What You Offer SynergyAspen

- 2-year technical diploma or degree in Environmental Sciences
- Candidates with an A.Ag. or P.Ag. designation preferred
- Experience with pipeline and/or construction monitoring, ALR soils, vegetation, reclamation, and erosion control
- Field experience in Northeast BC and available to work in the Fort St. John area and possible alternate locations, as needed
- Ability to work outside and potential remote locations in adverse weather conditions, when required
- 4 + years related remediation/reclamation/natural sciences field experience is an asset
- Valid safety tickets, such as H2S Alive, First Aid, Ground Disturbance, and/or the willingness to obtain
- Possess clean driving record and ability to provide acceptable driver's abstract
- Reliable attention to detail and excellent oral and written communication skills
- Proficient in Microsoft Office Suite, specifically Outlook, Teams, Excel, and Word
- Ability to work in a safe and responsible manner
- Commitment to safety

What SynergyAspen Offers You

- An opportunity to be a leader in the adoption and use of technology for an environmental consulting company with the purpose of reducing our clients' environmental footprint
- An opportunity to expand your expertise, and work for a company with integrity of purpose
- Competitive compensation and comprehensive extended health benefits
- Eligibility for educational and professional membership dues reimbursements
- Business-casual dress code
- Pet friendly offices

How to Apply
